**Business Performance Analysis
(2024 vs 2025)**

SOURCE: RESTAURANT SALES DATASET (2024–2025)

ANALYSIS APPROACH

- Combined 2024 and 2025 transactional sales data.
- Used site and calendar dimensions for analysis.
- Performed Year-on-Year (YoY) sales analysis.
- Analysed site-level performance.
- Evaluated weekly sales trends using the financial calendar.
- Identified key business insights and recommendations.

(2024–2025)

YEAR-ON-YEAR SALES PERFORMANCE

Sales 2024 = £6.53M

Sales 2025 = £6.25M

Key Insight

- Total sales declined from £6.53M to £6.25M.
- YoY decline: 4.3%.
- Indicates a slight reduction in overall business performance.

RESTAURANT PERFORMANCE ANALYSIS

London = £4.22M

Manchester = £3.18M

Liverpool = £2.92M

Birmingham = £2.45M

Key Insight:

- **London is the strongest performing site.**
- **Birmingham generated the lowest sales.**
- **Significant variation exists across locations.**

Source: Restaurant Sales Dataset
(2024–2025)

SITE PERFORMANCE COMPARISON (2024 VS 2025)

KEY INSIGHT:

- **ALL LOCATIONS EXPERIENCED A DECLINE IN 2025.**
- **THE DECLINE APPEARS BUSINESS-WIDE RATHER THAN SITE-SPECIFIC.**

Source: Restaurant Sales Dataset (2024–2025)

WEEKLY SALES TREND

SOURCE: RESTAURANT SALES DATASET (2024-2025)

Key Insight:

- Peak sales occurred in Week 21.
- Week 27 shows a significant decline.
- This may indicate incomplete data or reduced demand.

RECOMMENDATIONS & CONCLUSION

Recommendations:

- 1. Investigate the 4.3% YoY decline in sales.**
- 2. Replicate successful practices from London across other sites.**
- 3. Conduct a detailed review of Birmingham's performance.**
- 4. Increase marketing activity during weaker periods.**
- 5. Monitor weekly trends and investigate sharp declines.**

Conclusion:

The business generated £12.78M in net sales across the analysed period. While performance remains strong, a small decline in 2025 suggests opportunities to improve sales growth and operational effectiveness.
